We will be grinding mesquite pods  
for community members and others  
with the hammer-mill.

Gather the pods before and  
bring them to the museum on  
the 17th. Make sure they are  
dry, free of rocks and twigs;  
pods need to snap when bend-  
ed. A 5 gal. bucket will get you  
less than 1 gal. of flour.

If it is rainy during the week  
before, we may reschedule the  
milling to a drier date.

But on the 17th we have  
pancakes!!
